

## How did we make the best even better?

MADE FOR REAL 

### By listening to customers.

**Easy Blade Replacement** Oneway installation makes on-site replacement a snap. Blade is backward compatible with EVO 7.

**Side Tie Entry** Permits easy tie insertion to finish faster.

**+** **Extended Nose** Easily tension and cut cable ties in cramped spaces.

**+** **Trigger** Perfectly contoured, full-length design – choose between small and standard hand sizes. Improved design further reduces potential for slippage.

**+** **Enhanced Industrial Design** Durable composite housing survives drops and chemicals in the toughest environments. Upgraded components for improved reliability.

**+** **Lock-out Lever** Prevents inadvertent change of tension setting. Sleeker profile allows tool to pass through wires without catching.

**Tension Knob** Provides 33 micro-increments to fine tune tensioning, for industry-leading precision. Factory-calibrated tensioning assures consistent wire bundle tension from tool to tool for dependable accuracy.

**+** **Ergonomically Engineered Handle** Two-shot, soft-grip material conforms to operator's hand for maximum comfort without fatigue. Improved to reduce slippage.

**+** **Hanger Hook** For adding a wrist strap or hanging on tool wall. More robust design borrowed from the heavier duty EVO 9.

**Exclusive Ergonomic Features** Patented Tension-Lock-Cut function eliminates tool kick-back. Proven ergonomic design helps reduce repetitive hand stress. Lightest tool on the market.

**+** *Improved feature*

## Over a million reasons it's still the best

The "i" in EVO 7i stands for industrial. With enhanced features for extended performance, HellermannTyton continues to deliver the tools preferred by manufacturers.

- Tested to over one million cycles, for unparalleled performance
- Factory-calibrated tensioning provides consistently reliable results for demanding applications
- Short and standard span for different sized hands, as opposed to a one-size approach
- Customer serviceable blade and nosepiece – backward compatible with EVO 7
- 12 months warranty included
