

## RJ45 Dust Covers

### DCMJST

#### Application/Product Description

The RJ45 Dust Cap has been designed and manufactured by HellermannTyton to prevent foreign bodies such as dust, copper cable strands and cable insulation entering standard RJ45 jacks. Made from durable Elastomer material giving a reliable, secure grip of the socket.

The swing tab allows for operation in tight/compact spaces and assists with grip. Easy to plug; simply push the Dust Cap into an empty un-shuttered RJ45 socket. To unplug, push down the swing tab then pull on tab to remove.

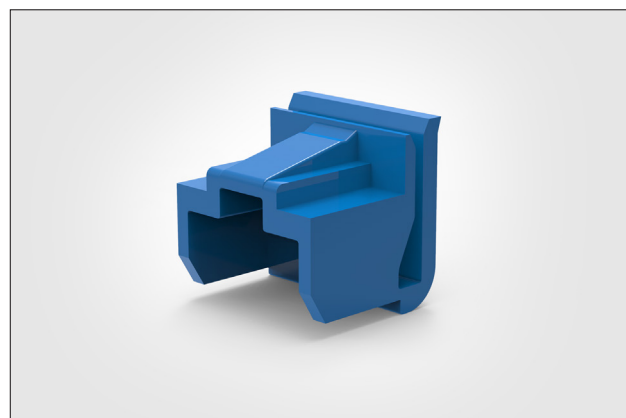

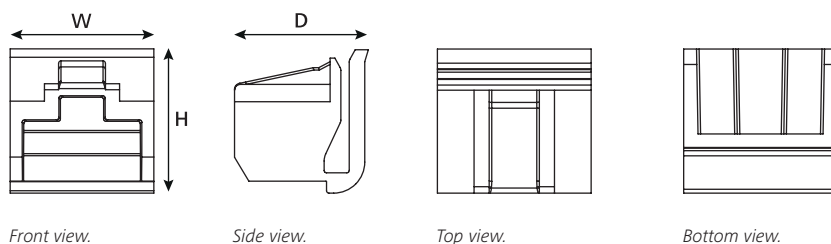

#### Features and Benefits:

- Fits all RJ45 ports
- Compact and low profile
- Protects unused ports from dust and dirt
- Easy to insert and remove in high density applications with swing tab design
- Ideal for expensive active equipment
- Soft rubber material
- Conforms to RoHS standards

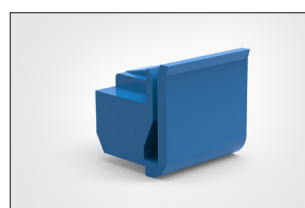

#### Technical Data

Dimensions (mm)	H	W	D
	12	12	11
Material	Thermoplastic Elastomer (TPE)		
Weight (g)	TBA		
Box Quality	100 pcs		
Available Colours	Dark Blue		
Item Code	DCMJST
