

AFN / FFE V Mounting Bracket

MB-AFN/FFE-V-BRKT-V2

Application Information

The lightweight V shaped pole mounting bracket has been designed to provide mounting positions for 2 enclosures and is suitable for use with the Aerial Fibre Node (AFN) and the Fibre Facade Enclosure (FFE).

Anchoring is provided at the base of the bracket for incoming cables and on the left side and the centre for distribution fibre drops.

The mounting bracket is manufactured from powder coated stainless steel and designed not to exceed the width of the pole. The bracket can be pre-loaded with the enclosures and then secured to the pole.

Technical Data

| Dimensions (mm) | D | W | H | WT (kg) |
|-----------------|-------------------------------|-----|-----|---------|
| | 201 | 179 | 383 | 1.4 |
