

HTC Series Wall Boxes - 600mm Deep

6U, 9U, 12U, 15U

Application/Product Description

The HTC Series Wall Boxes from HellermannTyton offer a versatile range of wall-mounted enclosures designed for secure storage and organization of 19" rack-mountable equipment. Available in 6U, 9U, 12U, and 15U sizes with a 600mm depth, these enclosures are perfect for compact spaces where equipment needs to be securely mounted while maintaining easy access for maintenance and upgrades.

Built for durability and functionality, the HTC Series enclosures provide secure mounting options with ample cable management features, making them ideal for IT and telecommunications applications.

Features and Benefits:

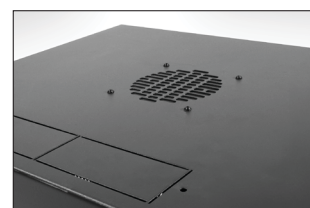

- Robust Construction:** Steel welded frame for strength and stability, available in multiple sizes (6U, 9U, 12U, and 15U), with a depth of 600mm.
- Optimised Cooling:** Equipped with ventilation holes and optional fan mounting points to ensure efficient airflow.
- Easy Installation:** Comes with a rear mounting bracket and multiple hole options for quick wall installation.
- Secure Access:** Features lockable front and side doors to prevent unauthorised access.
- Convenient Cable Management:** Integrated cable knockouts at the top, bottom, and back, along with support for optional brush plates (sold separately).
- Grounding Ready:** Pre-installed earth studs for straightforward grounding of the enclosure and equipment, with accessories available.
- Versatile Compatibility:** Designed for 19" rack-mounted equipment, offering flexibility for various applications.
