Detectable Products for Food and Beverage Industry

Innovative solutions for a variety of applications and industries

Welcome to HellermannTyton

We are one of the world's leading manufacturers of products for fixing, fastening, identifying, isolating and protecting cables and their connecting components. Our state-of-the-art data network technology and installer solutions complete our product range. Since we have a global footprint we are conveniently located near to you.

Detectable Products - Introduction

We understand the challenges you face. The extensive product portfolio we can offer reflects our long-standing industry expertise. Wherever foreign objects might enter the food processing chain, it is crucial to use materials that are easily detectable in the production facility. We offer metal content products that are simple to detect, making an important contribution to quality management and helping you achieve compliance to HACCP.
