

## Technical data sheet

Article number:  
313-60640

TC24 64

|                                     |                                  |
|-------------------------------------|----------------------------------|
| Product Group                       | Shrink ration 2:1 transparent    |
| Product Family                      | Temperature range -55°C to 125°C |
| Material                            | Polyolefin, cross-linked (PO-X)  |
| Colour                              | Black (BK)                       |
|                                     |                                  |
| Dielectric Strength                 | 19.7 kV/mm                       |
| Flammability                        | ASTM D876                        |
| Longitudinal Change After Shrinkage | -15% max.                        |
| Min. Shrink Temperature - °C        | +115 °C                          |
| Operating Temperature               | -55 °C to +105 °C                |
| Package Content packed in           | reel                             |
| Pack Cont.                          | 300 m                            |
| Recov. Ø d max.                     | 3.2 mm                           |
| Shrink Ratio                        | 2:1                              |
| Supplied Ø D min.                   | 6.4 mm                           |
| Wall (WT)                           | 0.64 mm                          |
