WESHLBLDC

Product Group	Pre-Printed Solar Installation Labels
Material	Type 443/281, UV-stabilised, flexible white vinyl with clear polyester laminate (443/281)
Colour	Red (RD)
Adhesive	Acrylic
Application Method	Labels are applied by hand to PV installations where durable UV resistant marking is required.
Curing Temperature	+10 °C
Height (H)	63.5 mm
Labels per Row	1
Material Durability	Up to 5 years outdoor in vertical exposure
Operating Temperature	-40 °C to +79 °C
Package Content packed in	pack
Pack Cont.	50 pcs.
UL-File Number	MH11410
UV-Stabilised	Yes
Width (W)	95.25 mm

RoHS
