

Technical data sheet

Article number: 596-12163

TAG73TD1

Product Group	Component labelling, thermal transfer
Product Family	Helatag 1210, for rough surfaces
Material	Type 1210, Vinyl, white gloss (1210)
Colour	White (WH)

Application Method The functionality and durability of the labels can be negatively affected if improperly processed or applied. All surfaces to be bonded must be clean, dry as well as free from dust and grease. Avoid touching the adhesive surface of the label as this could impair the application performance. Chem. Material Properties Resistant to water, alcohol, most oils, greases, fuel, aliphatic solvents, weak acids, salts a alkalis. Curing Temperature from +5 °C Height (H) 25.40 mm Initial tack [Test method] 11 N/25 mm [FINAT FTM 9] Labels per Row 1 pc. Material Durability 2 years external weathering (central European climate) Mech. material properties Permanent adhesive, suitable for critical surfaces Operating Temperature -20 °C to +80 °C Package Content packed in reel Pack Cont. 2000 pcs.

Operating Temperature -20 °C to +80 °C Package Content packed in reel	
Package Content packed in reel	
Pack Cont 2000 ncs	
τας τους. 2000 μες.	
Peel strength [Test method] 250 N/m [FINAT FTM 2]	
Print Method thermal transfer print	
Recommended Ribbon Type TT822OUT	
Storage conditions 50% relative humidity., The storage in the original packaging is recommended., Please as warehousing under impacts such as high humidity, heat and coldness.	oid
Storage Temperature +21 °C	
Thermal Transfer Printer □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □	
Thickness of Foil [Test method] 84 µm [ISO 534]	
Width of Liner (WL) 55.00 mm	
Width (W) 50.80 mm
